## NASTY

Nasty is a badass and strong woman but she also is well known for her brutality as well as she is a crazy and merciless person.

In ELEX there are three factions and Nasty belongs to the Outlaws who live in the rocky, desert wasteland of Tavar.

The Outlaws will worship no god, They believe in the freedom of choice, a world where anyone can rise to the top - and fall. Life may be harsh, but also the strong will be rewarded. That's just one reason why Nasty is the way she is ...

Did you know that you can choose Nasty as a companion - and maybe for more than that?

## MAKE-UP

HAIRSTYLE: SIDE CUT

### HAIRSTYLE

When you live in the wasteland you don't have the time for a perfect haircut and can't wash your hair every day, so long hair is also not recommended.

Nasty has a practical and badass looking sidecut. The perfect hairstyle for fighting and to command all the stupid Outlaw bastards.

### MAKE-UP

Nasty's make-up style is very clean and light: The sun would burn it away anyway.

A dark brown or black eyebrow pencil highlights Nasty's bold features perfectly while smokey eyes and a little bit of rouge on the cheeks still give her the feminine touch.

### BODYPAIN

The wasteland is dirty and dusty, it is not necessary to take a shower. You will get dirty anyway!

NASTY

FAKE IT!

## LEATHER JACKET

The leather jacket is made out of dark brown leather and black leather for the quilted parts.

For weathering just use a sponge, a wire brush, sandpaper and some spraypaint to make it look old and dirty.

## SHOULDER ARMOR

The shoulder armor has a simple shape. This one is 3D printed but you can also make it out of foam.

The paint job and the weathering gives the whole thing the right look.

## HAIR: SIDE CUT

Nasty has a sidecut. A full lace wig works perfect for that. Just separate the side that has to be shaved and use a hair trimmer to trim the hair.

## STOCKINGS AND BAG

The bag is made out of black and red fake leather, decorated with a metallic buckle and is also weathered with acrylic paint.

The stockings are just normal wool stockings which were weathered with acrylic paint.

## BOOTS

The boots are made out of normal black military boots which were spray painted and weathered with normal acrylic paint.
